

SP 2562 Trecepta RIB

109 Days

- High yielding hybrid with Trecepta® trait package
- Very good test weight
- Robust plant type
- Keep on rotated ground

Characteristics

Early Growth	3
Dry Down	2
Roots	3
Stalks	2
Minimum Till	3
Test Weight	2
Disease Tolerance	3

Plant Height	Medium-Tall
Ear Height	Medium-High
Ear Type	Semi-Flex
Herbicide Sensitivity	Not Rated
Population	28-36,000

Herbicide Sensitivity

Caution-GR: Some sensitivity to the Growth regulator family of herbicides. Use with caution.

Caution-PI: Some sensitivity to the Pigment Inhibitor family of herbicides. Use with caution.

Caution-SU: Sensitive to the Sulfonylurea family of herbicides. Avoid using these chemicals.

Ratings scale: 1 = excellent, 2 = very good, 3 = good, 4 = fair, 5 = poor

NOTES

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Insect control technology provided by **Vip3A** is utilized under license from Syngenta Crop Protection AG. Agrisure Viptera® is a registered trademark of a Syngenta group company.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Glyphosate will kill crops that are not tolerant to glyphosate.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.
